March 14, 2016

Ken Gray
Mayor
City of Amesbury
62 Friend Street
Amesbury, MA 01913

Dear Mayor Gray:

I am writing to express my interest in becoming a member of the Amesbury Conservation Commission. After attending several meetings and speaking with Mr. John Lopez, I hope to move forward with joining the commission. I am interested in both the preservation of community open spaces, as well as educating private landowners and developers about how to best improve and maintain their property according to federal, state and city laws and regulations.

My education is in environmental biology, and I am motivated to learn more about environmental protection and engineering as I look at graduate school in the future. I have worked in environmental conservation for ten years, in both government and nonprofit entities. Most recently, my work for Mass Audubon has focused on incorporating ecological management planning into the work of the education department and promoting ornithology as a keystone field around which many conservation efforts are built. I believe I know many of the challenges that Amesbury faces with regard to conservation and land management. I would like to learn more and help where I am able.

I appreciate your time in considering my request to join the Conservation Commission. I am available by phone at 617.800.4164, or via email at adriennelennon@gmail.com to arrange for a meeting and move forward with the required process.

Sincerely,

Adrienne Lennon

Work Experience:

Teacher Naturalist I/Camp Director – Mass Audubon

Joppa Flats Wildlife Sanctuary and Education Center, Newburyport, MA August 2013 – August 2015

- Planned, publicized, prepared for and led adult, family, youth and school programs onsite, in the field on federal, state and municipal properties, aboard chartered boats and in schools on the subjects of ornithology, ecology, wetlands biology and conservation
- Implemented improvements to education resources to support the objectives of the Next Generation Science Standards and Massachusetts Science and Technology/Engineering (STE) Standards with a focus on Climate Change and Sea Level Rise problem solving models
- Expanded, marketed, designed and delivered Joppa Flats Summer Camp, an American Camps Association accredited eight-week summer science program serving over 250 campers
- Produced and managed the camp program's seasonal staff of five, \$60,000 financial budget and promotional supplies to ensure long-term growth and success of the course
- Trained and supervised Seasonal Interns and in outreach family program development and execution, school program support and aquaria care
- Maintained and inventoried 50-gallon and 110-gallon salt water aquariums housing local marine invertebrates and fish. Developed interpretive materials for volunteer use with visitors.
- Evaluated and updated program supplies, resources, instructional materials and curricula

Camp Program Coordinator – Mass Audubon

Joppa Flats Wildlife Sanctuary and Education Center, Newburyport, MA May 2013 – August 2013

- Developed Joppa Flats Summer Camp schedule and themes, coordinated field trips, handled camp secretarial responsibilities and parent communication
- Conducted safety and team-building trainings for camp staff and volunteers
- Taught age appropriate natural history lessons to campers ages 5-13

Education Intern – Mass Audubon

Joppa Flats Wildlife Sanctuary and Education Center, Newburyport, MA October 2012 – May 2013

- Supported naturalist in implementing ecology curricula in family, youth and school programs
- Performed administrative duties and made interpretive materials to enhance the visitor experience
- Attended to the sanctuary aquarium tanks and their inhabitants

Research Assistant – Prescott College

Prescott College, Prescott, AZ and Virgin Islands National Park, St. John, USVI May 2010 – May 2011

- Participated in a graduate research survey to assess shell usage patterns and relationships by local species of terrestrial hermit crabs inside the Virgin Islands National Park, St. John, USVI
- Baited, captured, handled and tagged the Western Atlantic Purple Pincher Hermit Crab *Coenobita clypeatus* and other crab species within plots for comparison in the study
- Recorded and analyzed scientific data for use in developing databases and generating summary reports using spreadsheets, charts, graphs, tables, and maps with multiple software platforms

Additional Skills:

- Graphic Design and Modeling – Publisher, InDesign, SketchUp
- Social media and website content administration
- Conversant in New England native flora and fauna and invasive species identification
- Familiar with federal and state wildlife and environmental management laws and practices
