

# LAKES AND WATERWAYS

---

# Mission

- The Lakes and Waterways Commission assists with the development and maintenance of a comprehensive plan for the management of the city's lakes, rivers, ponds and waterways.

# Waterbody Assessment

- A comprehensive assessment of Amesbury's Lakes, Ponds, and Rivers
- Available on line at [AmesburyMA.gov](http://AmesburyMA.gov) website
- Clearinghouse for issues and information on waterbodies we appreciate your input.
- Support lakes

# What we do

- Establish water levels +quality resolve conflict between users.
- Monitor the ongoing use of the community's waterways.
- Maintain Amesbury's riverfront heritage
- Monitor waterfront development
- Work with other organizations in other communities (both MA and NH)

# Ongoing Projects

- Management Plan
- Issues support
- Grant support

# In Conclusion

***The Lakes and Waterways Commission needs more members. We strongly believe that a representative from each body of water in town should be on the Commission.***

# Thanks!!

- Thanks to this event's organizers and participants and for all those who share their time and thoughtfulness watching this in the best interests of this town and the environment.
