**An Ordinance** to amend City Code, Chapter 400 Streets and Sidewalks, § 400-5, titled “Snow removal” and § 400-7, titled “Enforcement; violations and penalties.”

**Summary:** These revisions are intended to strengthen the City’s ability to enforce the regulations for clearing of sidewalks. The City’s budget is annually impacted by higher than anticipated snow removal costs. Consistent enforcement of City ordinances will ensure compliance with requirements and ensure DPW resources are available to more efficiently clear areas the department is responsible for. This ordinance to amend the City Code relative to snow removal will:

- Revise language, specifying the removal of snow and the treatment of ice.
- Create a procedure for a published municipal snow and ice plan.
- Provide information about resources for snow removal- either paid or complimentary based on physical ability and financial hardship.
- Increase the fines for failure to remove snow and ice within the defined time frame and add the Director of Inspectional Services and their agents to enforce this article.
