**Subject: National Grid and Verizon Joint Pole Pet. – Work Request #30933700 Main Street
Proposed Pole location Petition and Sketch received at the Office of the City April 29, 2024**

The Amesbury DPW has reviewed the proposed joint pole location requested by National Grid and Verizon in Main Street, opposite 350 Main Street. The Petition Plan WR (work request) #30933700 is dated February 23, 2024.

The DPW has no significant concerns with the location of this pole. The DPW would request that National Grid and Verizon confirm that the proposed location does not conflict with other utilities within the edge of the City right of way prior to installation. National Grid did stake the location in advance of requesting a hearing. Dig Safe requests should be made by National Grid in advance of any work at this location.

Care should be taken to ensure the pole is installed within the right of way, but where possible three to four feet from the edge of pavement, away from the edge of the road to leave space for snow storage. Installation of poles in the paved road or walk should be avoided where possible.

Prior to installation or relocation of any utility pole the City of Amesbury Department of Public Works, and the City Water and Sewer Departments shall be informed of the proposed activities.

Should additional information be required, please feel free to contact me.

Sincerely,

**Joseph Buckey PE
Director of Public Works**
