Subject: National Grid and Verizon Joint Pole Pet. – Work Request #30837881 Union Street  
Proposed Pole location Petition and Sketch received at the Office of the City Clerk on November 1, 2023

The Amesbury DPW has reviewed the proposed joint pole location requested by National Grid and Verizon in Union Street, some 80 feet North of the intersection with High Street . The Petition Plan WR (work request) #30837881 is dated September 14, 2023.

The DPW has no significant concerns with the location of this pole. The DPW would request that National Grid and Verizon confirm that the proposed location does not conflict with other utilities within the edge of the City right of way prior to installation. National Grid did stake the location in advance of requesting a hearing. Dig Safe requests should be made by National Grid in advance of any work at this location.

The request calls for the removal of the existing pole at this location to accommodate a new driveway, making the overall location safer. Additionally, Union Street is very narrow, DPW asks please install within the right of way but outside the limit of the paved road if possible.

Prior to installation or relocation of any utility pole the City of Amesbury Department of Public Works, and the City Water and Sewer Departments shall be informed of the proposed activities.

Should additional information be required, please feel free to contact me.

Sincerely,

Joseph Buckey PE  
Director of Public Works
