LEGISLATIVE UPDATE

the City of Amesbury. Summary: This ordinance will update the traffic and Parking Regulations adopted in Bill No. 2015-077 and subsequently amended in Bill No. 2015-081, Bill No. 2019-074, Bill No. 2022-059, Bill No. 2022-181, Bill No. 2023-100, Bill No. 2023-101, Bill No. 2024-140, Bill No. 2024-141, Bill No. 2024-142, Bill No. 2024-143 and Bill No. 2024-148 to amend the Amesbury Municipal Code to revise ARTICLE 1 – DEFINITIONS to include the names of the eight parking lots owned and maintained by the City of Amesbury. The City of Amesbury has recently gone through a reorganization of its municipal parking lots. These include the Upper Millyard Parking Lot, Lower Millyard Parking Lot, Secured Police Lot, School Street Parking Lot, Friend Street Parking Lot, Lake Gardner Parking Lot, Washington Landing Parking Lot and new City Hall Parking Lot at 5 Market St. All these lots have specific geographic locations that should be defined in the City of Amesbury Traffic and Parking Regulations-Mayor Sponsor **Referred to Ordinance & Administration (O&A) – Mon. September 15th, Planning & Development (P&D)– Wed., September 17th, Second Reading on September 23rd.**

2025-091 An Ordinance to update and amend the City of Amesbury Traffic and Parking Regulations SCHEDULE IV (STOP SIGNS) to reflect the addition of two stop signs added to the area of Market Street at Fern Avenue in support of an All-Way stop control (AWSC). Summary: This ordinance will update the traffic and Parking Regulations adopted in Bill No. 2015-077 and subsequently amended in Bill No. 2015-081, Bill No. 2019-074, Bill No. 2022-059, Bill No. 2022-181, Bill No. 2023-100, Bill No. 2023-101, Bill No. 2024-140, Bill No. 2024-141, Bill No. 2024-142, Bill No. 2024-143 and Bill No. 2024-148 to reflect the addition of two stop signs added to the area of Market Street at Fern Avenue in support of an All-Way stop control (AWSC). The city has tentatively been approved to receive materials from DOT in support of a AWSC at Market Street at Fern Ave. Before equipment and materials can be awarded the city must adopt legislation in support of making the intersection a four way stop. In support of this request DOT had contracted Greeman-Pedersen, Inc. (GPI) an engineering firm to conduct a traffic study in the area of Market Street and Fern Ave to see if traffic volume and crash reports supported the addition of an AWSC. GPI concluded that the intersection vicinity is a mix of residential and agricultural. Both Market Street south and Fern Avenue west have large roadside trees. East of the intersection is Cider Hill Farm. The farm is a popular attraction during harvest season leading to high weekend traffic. Market Street at Fern Avenue consists of four (4) approaches, and recent crash statistics indicate seven (7) angle crashes that are susceptible to correction with AWSC, between January 1, 2019, and December 31st, 2021. The crash history meets Manual on Uniform Traffic Control Devices (MUTCD) warrant A (Crash Experience) for an all-way stop control. Based on GPI's findings MASS DOT will support the construction of a AWSC but before the city can move forward with state grant assistance the city must first approve the stop signs needing to be added on Market Street at Fern Ave to complete the four-way stop proposal- Mayor Sponsor **Referred to Ordinance & Administration (O&A) – Mon. September**
