1. Please explain why you would like to serve on a particular Board, Committee, or Commission. If necessary add additional sheets.

My wife Delia and I moved to Amesbury over 3 years ago and now consider this our hometown. I have been retired for almost six years and I have been looking at ways to get more involved in the town which would be interesting and fit with my education and skill set. As an Electrical Engineer I have always had an interest in electricity and the energy field. Although my work experience was as a Quality manager, the products I supported during the last 24 yrs of my career were in many ways related to energy generation, distribution and control thus my interest. I have the time, experience and motivation to be contributing member for this group. This committee also has the potential to bring significant benefit to the city in which I live.

2. Please briefly describe your education and any relevant work or life experience or other activity which, in your opinion, would be beneficial in carrying out the responsibilities of this office. If necessary, attach additional sheets or your resume.

I have a BS degree in Electrical Engineering (Power) from Clarkson University. I also have a MS degree from Rochester Institute of Technology in Applied Mathematics (Statistics). I was at Xerox corporation at various management positions surrounding product development and quality for 14 years. My last 24 years was spent as a Quality Director for Schneider Automation. Initially I was hired to develop a manufacturing quality improvement program which through the years evolved into a program for the entire division. I retired as the Director of Quality reporting to the division head.

3. Please list any city offices you have held in Amesbury or elsewhere.
